

Water Plant Transmission Mains

Field crews will be in your area to conduct field surveys and geotechnical investigations.

- This door hanger serves as a 48-hour notice of work to be performed on your property. Crews will need to access your property between 7:00 a.m. and 7:00 p.m. to complete this work. We do not need to enter your home.
- Please refer to the letter mailed to you for more information.
- Section 163.03 of the Ohio Revised Code authorizes entry onto private property to perform work as described above.
- Field crews and personnel will carry identification issued by the City of Columbus. Participating companies may include ms consultants, Gresham Smith, DLZ, Resource International, Aldea Services, 7NT, DHDC Engineering Consulting Services, Eagon & Associates, Stone Environmental, ASC Group, Ahlum & Arbor and Columbus Water & Power.
- Field personnel will not be able to answer questions about the project; they will simply be collecting information for further evaluation.

Water Plant Transmission Mains

Columbus Water & Power is building a new water plant and transmission mains to prepare for the growing need for clean, safe drinking water in central Ohio.

To learn more about these improvements, visit the project webpage at

If you have questions or concerns about this fieldwork, email Mike Nuhfer, P.E. at mnuhfer@aldeaservices.com or call 740.972.6838.

If you have any additional questions about the project, email the project team at cbuswater@columbus.gov or call our hotline at 614-645-2675.
